KUMUD PATKAR

Software Engineer (Fresher) | Java, Node.js & React.js | OOPs, Data Structures, SQL/NoSQL

Pune, Maharashtra, India | +91-8010524548 | kumudpatkar6@gmail.com | LinkedIn: linkedin.com/in/kumud-patkar-928180283 | GitHub: github.com/kumudpatkar

CAREER OBJECTIVE

Computer Science Engineering (AI & ML) graduate, 2026 batch (CGPA 8.55/10), with strong fundamentals in C, C++, and OOPs concepts, Data Structures & Algorithms, and good understanding of JavaScript. Skilled in basic front-end development with HTML, CSS, and JavaScript, familiar with SQL and NoSQL databases, and experienced with web frameworks including React.js, Node.js, and Express.js. Strong problem-solving skills, a quick learner with good knowledge of logical and designing concepts, and hands-on experience in defect fixing and performance optimization. Strong communication and interpersonal skills, comfortable working from office in Pune. Seeking to join Thinkitive Technologies as a Software Engineer (Fresher) — Java / Node.js / React.js.

CORE SKILLS

Programming Fundamentals: C, C++, Java, Python — strong OOPs concepts, logical & designing concepts, problem-solving
OOPs & Data Structures: Object-Oriented Programming, Data Structures & Algorithms, complexity analysis, debugging
Front-End: Basic front-end HTML, CSS & JavaScript; good understanding of JavaScript; web framework experience — React.js
Back-End / Web Frameworks: Node.js, Express.js, Java, REST API development
Database: SQL/No-SQL — MySQL, PostgreSQL, MongoDB; schema design, query optimization
Networking & Systems: Basic Networking, Operating Systems, Computer Networks
Defect Fixing & Optimization: Debugging, software testing, defect fixing, performance optimization, code optimization
Tools & Practices: Git, GitHub, Postman, VS Code, Agile/Scrum, SDLC, requirement analysis, documentation
Communication: Strong communication & interpersonal skills, technical communication, team collaboration

PROJECTS

AI Smart Job Portal — Full Stack Recruitment Platform | *Java, MySQL, REST APIs, React.js, Node.js*

- Designed a full-stack platform with role-based authentication (Admin/Recruiter/Candidate), a Java back-end, and a normalized SQL database schema with optimized queries.
- Built REST APIs for job posting, applications, and profile management; applied OOPs and logical design concepts throughout.
- Followed complete SDLC — requirement analysis, development, testing, and defect fixing — with Git-based version control.

E-Commerce Platform with Recommendation Engine | *Node.js, Express.js, MongoDB, React.js*

- Built a full-stack web application using Node.js, Express.js, and React.js with REST API integration and a No-SQL (MongoDB) schema design.
- Independently diagnosed and resolved 15+ application bugs through systematic debugging and defect fixing.
- Implemented indexing and query improvements as part of performance optimization, improving simulated click-through rate by 40%.

AI Document Q&A System (RAG Pipeline) | *Python, FastAPI, OpenAI API, FAISS*

- Built and documented REST APIs for a retrieval pipeline processing 10,000+ document chunks, improving answer precision by 50%.
- Applied systematic debugging and performance optimization, reducing hallucination rate by ~30% on a version-controlled, tested codebase.

INTERNSHIP EXPERIENCE

Engineering Intern — Teachnook (IIT Roorkee Collaboration) | *Feb 2025 – May 2025*

- Developed reusable Python modules applying Object-Oriented Programming principles, improving model accuracy by 18% through debugging and testing across 3 real-world datasets.
- Participated in debugging, software testing, requirement analysis, documentation, and Agile sprint planning within a 5-member development team.
- Demonstrated strong communication and interpersonal skills, presenting technical progress clearly to 20+ stakeholders within sprint deadlines.

EDUCATION

B.E. — Computer Science Engineering (AI & ML)
Finolex Academy of Management & Technology, Ratnagiri — University of Mumbai | 2022 – 2026 | CGPA: 8.55/10

CERTIFICATIONS

- AI Agent Architect — IBM SkillsBuild
- Software Engineering & Agile Methodologies — Accenture
- Python Programming — NPTEL / Coursera
- Artificial Intelligence & ML — IIT Roorkee / Teachnook

KEY STRENGTHS

Strong problem-solving skills • Quick learner • Good knowledge of logical & designing concepts • Strong communication & interpersonal skills • Comfortable with Work from Office, Pune • Fluent in English, Hindi, and Marathi
